Spiritual

Faith has been the center piece of my life. I have found joy and freedom in God, independent of my career, financial status and success. I got closer to God through daily prayer and Bible study. I met with a small group weekly that counseled and guided me through my fears, doubts and troubles. I practiced love, patience and grace daily. I showered everyone with love, regardless of their viewpoints or beliefs. My way of demonstrating God's love is by living my life with integrity, love and generosity.

Love

I learned that love is the ultimate weapon against frustration, hatred, and anger. I have a wonderful, fun, healthy, God-centered relationship with my wife. I have mended my broken relationships and continue to grow present ones. Relationships are one of the most important areas of my life; I have learned that we cannot live a balanced, healthy life as lone rangers. I have been accountable and committed to be the best version of myself every day. I am proud of myself.

Family

My family relationships have grown and solidified tremendously. I regularly connect with family to get updates about their life. Family has become increasingly important and special to me. I have made clear progress in intentionally keeping in touch and spending quality time with everyone in my extended family. I am known as someone who cares deeply for family and cherishes our time together.

Career

I find great fulfillment and satisfaction in my job. I wake up every day excited to go to work. My co-workers are not just co-workers; they are truly friends. They want the best for me, as I do for them. My environment and work culture are fast-paced, fun, light-hearted, determined, and has a strong moral compass. I make enough money to be comfortable and provide gifts and support to friends and family. My work has impacted my life for the better and I am very proud of what I have accomplished.

Learning

I have taken the initiative to progress and learn in every aspect of my life. I measure my learning by reminiscing on my character development and what I have achieved. My mindset and determination never allowed me to be content with status-quo knowledge, understanding, and growth. And, I got comfortable with failure and rejection, knowing those were also a path to learning. I took advantage of every opportunity to learn, being a forever student.
